國立清華大學數學系 學生幾何研討會

講題 What is a K3 category?

講者 賴冠文博士 (中央研究院)

時間 2023.11.16 (Thu) 17:30 - 18:30

地點 綜三 201

Abstract

A K3 category can be considered as an invariant attached to a complex cubic hypersurface of dimension four. They were introduced as an attempt to understand the birational geometry of such hypersurfaces. This talk is intended to be a gentle introduction to this topic.
