

國立清華大學數學系訪問學者學術演講
NTHU Department of Mathematics
Visiting Scholar Colloquium

- 講題 Yang-Mills topological quantum field theories
and their formalism in 8, 6, 4 dimensional
manifolds with or without special holonomies
- 講者 Prof. Laurent Baulieu (Sorbonne University Paris)
- 時間 2024.5.29 (Wed.) 15:30 – 16:30
- 地點 Room 101, General Building III

Abstract

This talk details these interesting examples of quantum theories of topological fields in an appropriate framework, understandable to both physicists and mathematicians.
